The Perfect Choice for Safety and Economy: Otokar Atlas!

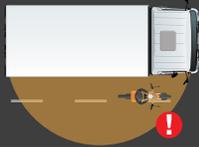

Safety

Otokar Atlas 9 is the only truck in its class to offer driver and passenger airbags as standard. It provides a high level of safety with its advanced driver assistance systems and with the GSR II safety package.

Economy

Otokar Atlas 9 is budget-friendly with low fuel consumption, low maintenance costs and affordable spare parts. In addition to low operating costs, it offers an efficient transportation experience with its high performance.

Atlas: Superior Performance, Maximum Power

Performance

With high maneuverability in narrow streets and strong traction in tough conditions, the Otokar Atlas family ensures a reliable transport. Its corrosion-resistant, cathodolysis-coated chassis provides long-lasting protection.

Power

The Atlas 11 features a powerful Cummins engine with the highest torque in its class. Atlas 3D 15, with its robust three-axle design, offers superior performance in the toughest conditions. The Atlas 3D 15 is UNIQUE IN ITS CLASS with 10 wheels and a liftable axle system. The Atlas family is ready for any challenge, with a robust chassis structure and front and rear disc brakes.
